_____)

A frequently asked question regarding the Vernon Power Plant is why the Applicant is proposing to develop a 943-megawatt project when the native demand of the City of Vernon is less. As the Applicant made clear in its Application for Certification, the purpose of the Vernon Power Plant has always been not only to serve the native load of the City of Vernon, but also to meet the broader needs of the region.

Applicant is hereby changing the name of the project to more accurately reflect its regional nature. The project shall hereafter be known as the Southeast Region Energy Project.

DATED: March 6, 2008

Respectfully submitted,

 (PER)
