Re: Southeast Region Energy Project (06-AFC-04) – Withdrawal of Application for Certification

Dear Ms. Jones:

Pursuant to Title 20, California Code of Regulations, Section 1709.8, the City of Vernon hereby withdraws its application for certification for the Southeast Region Energy Project (06-AFC-04). I attest under penalty of perjury to the truth and accuracy of this notice.

Vernon will soon be filing a new application for certification with the California Energy Commission for the development of a 330 megawatt plant that will be the cleanest natural gas power plant ever built in the United States. The power from this new proposed plant will provide long-term, reliable energy resources for the more than 1,800 businesses in Vernon over the next 20 years. Currently, these businesses employ more than 50,000 residents from surrounding communities. With a stable and clean energy supply to meet future loads, these businesses will be in a strong position to create new jobs and protect these existing critical jobs for local residents. Currently, these businesses employ more than 50,000 residents from surrounding communities. With a stable and clean energy supply to meet future loads, these businesses will be in a strong position to create new jobs and protect these existing critical jobs for local residents.

In addition, Vernon recently purchased 30,000 acres of property in Kern County with the intent of developing significant wind and solar-generated electricity to advance the renewable component of its energy resources and to assist other utilities in meeting their renewables objectives. The city is actively working with Kern County, state and federal agencies to move this ambitious plan forward. The initial proposed wind energy project is expected to generate 175 megawatts of renewable energy. The proposed 330 megawatt plant will integrate with the intermittent renewable resources from Kern County to meet the City's native demand for reliable, clean energy.

Ms. Melissa Jones

The City of Vernon is working hard to achieve the goal of becoming a leader in environmentally responsible energy generation and environmentally sustainable city management. We appreciate the efforts of your staff in reviewing the Southeast Region Energy Project, and we look forward to working with you on our newly proposed project. Please do not hesitate to contact me if you have any questions.

Very truly yours,

CITY OF VERNON
