***APPLICATION FOR CERTIFICATION FOR THE
HUNTINGTON BEACH ENERGY PROJECT***

Docket No. 12-AFC-02

REVISED COMMITTEE SCHEDULING ORDER

Background

On June 27, 2012 AES Southland Development, LLC (AES-SLD) submitted an Application for Certification (AFC) to the California Energy Commission seeking permission to construct and operate a power generation facility, the Huntington Beach Energy Project (HBEP), located in the city of Huntington Beach just north of the intersection of the Pacific Coast Highway and Newland Street. The project would be located entirely within the footprint of the existing AES Huntington Beach Generating Station, an operating power plant.

The HBEP is a proposed natural-gas fired, combined-cycle, air-cooled, 939-megawatt (MW) electrical generating facility that would replace the AES Huntington Beach Generating Station. HBEP will consist of two independently operating, three-on-one, combined-cycle gas turbine power blocks. Each power block will consist of three gas-fired combustion turbine generators (CTG), three supplemental fired heat recovery steam generators (HRSG), one steam turbine generator (STG), an air-cooled condenser, and related ancillary equipment. Other equipment and facilities to be constructed and shared by both power blocks include natural gas compressors, water treatment facilities, emergency services, and administration and maintenance buildings.

The Energy Commission assigned a Committee of two Commissioners to conduct proceedings on the AFC. The Committee held a public Site Visit and Informational Hearing at the Central Library in Huntington Beach on September 10, 2012, to discuss the review process and to identify issues that could affect the schedule. Pursuant to California Code of Regulations, Title 20, section 1709.7(c), a Committee Scheduling Order was issued on October 1, 2012 (the "October 2012 Scheduling Order"). The October 2012 Scheduling Order reserved to the Committee the power to modify the schedule at any time upon either its own motion or that of a party. (Cal. Code Regs., tit. 20, § 1709.7 (c).)

The October 2012 Scheduling Order listed the events that needed to occur in order to complete the certification process and included several milestones for the project, including the issuance of the Preliminary Determination of Compliance (PDOC) by the South Coast Air Quality Management District (SCAQMD). The PDOC is a critical element in preparing the Preliminary Staff Assessment (PSA). At this time, the Committee does not have information about when the PDOC will be available. As such, the October 2012 Scheduling Order requires revision.

Status Reports and Status Conferences

The attached schedule requires status reports to be submitted by all parties. Status reports shall inform the Committee whether or not case development is progressing satisfactorily, and bring potential schedule delays and other relevant matters to the Committee's attention.

The reports shall be **filed with the Commission's Docket Unit and served no later than 3:00 p.m.** on the due date. The Commission's Docket Unit is located at 1516 Ninth Street, MS-4, Sacramento, California 95814-5512. Status reports must contain, "Huntington Beach Energy Project, Docket No. 12-AFC-02" in the caption or heading.

Public Adviser and Public Participation

The Energy Commission invites members of the public and other interested parties to participate either on an informal basis or by intervening in the proceeding. Both types of participation allow written and oral comments. Intervenors have the right to introduce evidence into the evidentiary record and cross-examine the other parties' witnesses.
